

DRUG AND ALCOHOL PREVENTION PROGRAM

AT SAINT FRANCIS UNIVERSITY

Saint Francis University in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (amends the Higher Education Act) 20 U.S.C. § 1011i; 34 C.F.R. § 86.1 et seq.; 55 Fed. Reg. 33,580 (Aug. 16, 1990)

Scope

The Drug and Alcohol Prevention Program at Saint Francis University applies to all students taking courses for academic credit at Saint Francis University, including students enrolled at the Saint Francis University campus in Ambialet, France. Academic programs occurring at campuses other than the Loretto, Pennsylvania campus are also included. Any University employee paid from federally funded grants or contracts, or any student participating in any federally funded or guaranteed Student Loan Program, must notify the University of any criminal drug statute conviction for a violation occurring at the University or while engaged in University activities. The content of the program also applies to employees of the University. This program applies to all on-campus and off-campus activities, including field trips, student-sponsored social activities, or professional meetings attended by employees that are sponsored by Saint Francis University.

Alcohol and Other Drugs Policy at SFU

To comply with the Drug-Free Schools and Communities Act of 1989 and subsequent amendments, Saint Francis University prohibits the unlawful manufacture, possession, use, dispensation, or distribution of any illicit drugs, including alcohol, on University property or as part of any University-sponsored activity. Students and employees are also subject to all applicable legal sanctions under local, state, and federal laws for any offenses involving illicit drugs on University property or at University-sponsored activities. The University affirms that illegal drug use is unlawful and harmful. The use of illegal drugs and alcohol abuse by students and employees could result in cognitive deficits, loss of productivity, and other health risks. These risks include an increased risk of accidents, which may result in death or permanent injury. Free, confidential counseling for alcohol and other drug abuse issues is available to students through Center for Well-Being located in the Library & Learning Commons and University Health Services located in the DiSepio Institute. Free, educational information on alcohol and other drug misuse is available for the University community through the Alcohol and Drug Education Resource Room located at 232 Padua Hall. The University sponsors educational programming for alcohol and other drug abuse issues through the Alcohol and Drug Education Resource Room, the Office of Residence Life, and the Office of Student Engagement. Other referral resources may include assessment, individual counseling, educational programs, materials, and referral and case management through community agencies, all of which may include a fee.

Driving Under the Influence/Driving While Intoxicated: The University is concerned about students who violate state and local laws regarding consumption of alcohol and the operation of motor vehicles. In accordance with state law, the University abides by the legal definition of intoxicated as “not having the normal use of mental or physical faculties by reason of introduction of alcohol, a controlled substance,

RESPONSIBLE ACTION STATEMENT

Students who act responsibly by notifying the appropriate authorities (e.g., calling 911, alerting a resident assistant, or contacting University Police (814-472-3360) typically will not face Student Conduct action for their own alcohol violations, unless they are responsible for other violations (e.g., vandalism or assault) as well. However, an action plan will be developed. Failure to follow the action plan will subject the student to Student Conduct processing.

SAFE HARBOR STATEMENT

The University believes that students who have a drug and/or addiction problem deserve help. If any University student brings their own use, addiction, or dependency to the attention of University officials outside the threat of drug tests or conduct sanctions and seeks assistance, a conduct complaint will not be pursued. A written action plan may be used to track cooperation with the Safe Harbor program by the student. Failure to follow the action plan will nullify the Safe Harbor protection and the campus conduct process will be initiated.

MANDATED EDUCATION AND EVALUATION

Students who violate the Alcohol and Other Drugs Policy may be mandated for evaluation and counseling with a Substance Abuse Counselor. In some cases, mandated evaluation and counseling with a Substance Abuse Counselor may affect future employment and/or admission to graduate/professional school. Students are advised to determine how this outcome will affect their current and future career goals.

a drug, a dangerous drug, a combination of two or more of those substances, or any other substance into the body” or failure to pass a field sobriety test. In addition, students under the legal minimum drinking age of 21 years who are found to have any detectable amount of alcohol in their systems will be considered driving under the influence of alcohol and subject to penalties under that offense.

Alcohol Policy: The following sections describe University’s policy regarding the sale, service, distribution, and consumption of alcoholic beverages on or off University property or at University-sponsored events in accordance with federal, state, and local laws.

Those under the minimum legal drinking age of 21 years are not permitted to possess or consume alcohol anywhere on University property or at University-sponsored events. Saint Joan, Saint Elizabeth, Giles, Saint Clare, Christian, Saint Louis, Saint Francis, Ave Maria, Amici, and Saint Agnes Halls are substance-free residence halls; no alcohol is permitted regardless of age. Students who are over 21 years of age and are a part of the House/Apartment Transition Program, (HATP program) are permitted to possess and consume alcohol in approved University housing units.

Consumption of alcoholic beverages is prohibited for all students, regardless of age, in all property owned, leased or subject to the control of the University, or as a part of any of its activities, including but not limited to off-campus activities sponsored by the University or engaged in by any recognized student organization. Students found where alcohol is present or being consumed violate the Alcohol Policy. Students over the age of 21 who live in HATP units, upon review of their status, may request an exception in accordance with the HATP Alcohol Policy. The sale or furnishing of alcoholic beverages of any kind to a minor (a person under 21 years of age), aside from being a violation of state law, is also considered a more severe breach of the University Alcohol Policy.

Students who are of legal drinking age may not share or provide alcohol to any students, employees, or guests who are under 21 years of age. Drinking games and simulated drinking games are prohibited on campus.

The University has full discretion in determining what events will permit the possession or consumption of alcohol by persons who are 21 years of age or older. For more information, see the University Social Event Policy. Recognized student groups receiving University funds are not allowed to use those funds to purchase alcohol.

Illegal Drug Policy: The following sections describe the University’s policy regarding the sale, manufacture, distribution, possession, and use of illegal drugs on or off University property or at University-sponsored events in accordance with federal, state, and local laws. In addition to University imposed sanctions, students and employees are subject to all legal sanctions under federal, state, and local law for any offenses involving illegal drugs on University property or at University activities.

Whether on or off-campus, failure to comply with the directives of University officials or law enforcement officers during the performance of their duties and failure to identify oneself to these persons when requested to do so is considered unacceptable behavior for a University student. An example of such inappropriate behavior includes but is not limited to: a) refusing to submit to a field sobriety test when requested by a police officer, b) failure to leave the scene of an incident when instructed by staff, c) failure to comply with instructions given by staff. Please be advised: intoxication will not be seen as a justifiable reason for a student’s failure to comply with staff directives.

University Sanctions

Saint Francis University’s Code of Student Conduct and Student Conduct Process, as published in the Student Handbook, outlines the expectations for students as it pertains

POSSIBLE RAMFICATIONS OF SUSPENSION/EXPULSION

Students who are suspended from the University for any length of time should be aware that the impact of this action may include, but not be limited to the following:

- ❖ Tuition, residence hall cost and fees. Suspension does not forgive financial obligations.
- ❖ Student financial aid
- ❖ Athletic participation and eligibility
- ❖ University housing/meal plan
- ❖ Use of University resources and access to University facilities
- ❖ Immigration status for international students
- ❖ Status and benefits for veterans and dependents of veterans
- ❖ Internships, assistantships, and study abroad
- ❖ Class attendance

ALCOHOL LIABILITY IN PENNSYLVANIA

Individuals in Pennsylvania who furnish alcoholic beverages to minors not only commit a violation of law, but they also render themselves potentially liable for any injuries the minor might sustain and for any injuries that third parties might sustain due to an act of an intoxicated minor. Individuals potentially liable for such damages include not only those who physically furnish the alcohol to the minor, but any persons who aid and assist in the furnishing of the alcohol through its purchase or through organizing, hosting, or supporting the event at which the alcohol is made available.

to the possession, use, distribution, and sale of alcohol and other drugs. All students found in violation of the Alcohol and/or Illegal Drug Policy are subject to sanctions including, but not limited to the following: conduct warning, probation, reassignment of residence hall unit, specific alcohol and other drug educational program, suspension, and expulsion.

As a condition of employment, all employees shall abide by the terms and conditions of 41 USC § 701 et seq. As such, an employee must notify the University of any Criminal Drug Statute Conviction for a violation occurring in the workplace no later than five (5) days after such conviction. Such notice shall be provided in writing by the employee to the Director of Human Resources. The University will, in turn, notify as appropriate, the applicable federal agency of the conviction within ten days of its receipt of notification of the conviction. For such conviction, the University will take the appropriate personnel action, up to and including termination, within thirty (30) days of receiving notice of such conviction. Employees may also be required to satisfactorily participate, at their expense, in a drug abuse assistance or rehabilitation program as approved for such purposes by a federal, state, or local health, law enforcement or other appropriate agency before being allowed to return to work, which may include drug and alcohol testing, as applicable. Employees may also be required to undergo reasonable suspicion drug and alcohol testing as part of this program. For purposes of this policy, a “conviction” means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the federal or state criminal drug statutes.

Employees in violation of the Saint Francis University Drug and Alcohol Prevention Program are subject to appropriate disciplinary action including suspension, demotion, non-renewal, and/or termination as provided in the Employee Code of Conduct. In addition, any student or employee who violated the standards of conduct as set forth in the Saint Francis University Drug and Alcohol Prevention Program may be subjected to referral for prosecution.

Health Effects of Alcohol

Too much alcohol, too fast, can kill you. It is always okay not to drink. If you do choose to drink, make healthy choices. A human brain continues major development through age twenty-five. Drinking during this critical developmental period—especially drinking to the point of getting drunk—may impair brain function for the rest of the person’s life. Memory, motor skills, and coordination can be affected. Young people are particularly likely to binge drink and to suffer repeated bouts of withdrawal from alcohol. This repeated withdrawal may be a key reason for alcohol’s harmful effects on the brain.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spousal and child abuse. Moderate to high doses of alcohol cause marked impairments in higher manual functions, severely altering a person’s ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described. Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions.

Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and liver. Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have

Pennsylvania MEDICAL AMNESTY LAW

A person shall be immune from prosecution for possession or consumption if he can establish the following:

(1) The only way law enforcement officers became aware of the person’s violation of subsection (a) is because the person placed a 911 call, or a call to campus safety, police or emergency services, in good faith, based on a reasonable belief and reported that another person was in need of immediate medical attention to prevent death or serious injury.

(2) The person reasonably believed he was the first person to make a 911 call or a call to campus safety, police or emergency services, and report that a person needed immediate medical attention to prevent death or serious injury.

(3) The person provided his own name to the 911 operator or equivalent campus safety, police, or emergency officer.

(4) The person remained with the person needing medical assistance until emergency health care providers arrived and the need for his presence had ended.

ACADEMIC /CAREER RISK

Saint Francis University students who intend to become educators need to be aware that state law requires that a report of their criminal history be submitted with their job application. Other academic major/careers may also be affected. More information may be found in Pennsylvania Liquor Control Board publication 0307, “Your Degree Does Not Matter” .

irreversible physical abnormalities and mental retardation. In addition, research indicated that children of alcoholic parents are at a higher risk of becoming alcoholics than other children. For more information:

Health Effects of Other Drug Use

All drugs—even over-the-counter and legal prescriptions—have possible side effects that can cause impairments for some people. However, these drugs are regulated, and risks are written on the packaging. With illegal drugs there are no guidelines, and you can never be sure of their strength or purity. Here are some things to consider:

Most, if not all, illegal drugs are mixed with impurities. You may not always get what you think you're getting!

Cocaine is highly addictive. It is easy to become addicted to both psychologically and physically. THC, the active ingredient in marijuana, remains in your body for one month following use. Marijuana smoke produces all of the harmful effects of tobacco smoke and contains 50 percent more of the cancer-causing chemicals. Alcohol and illicit drugs are significant factors in a large proportion of unplanned pregnancies, sexually transmitted diseases, date rapes, accidental injuries, and deaths. Long-term drug use and addiction can cause lasting social effects as well as permanent physical damage. Every organ system can suffer especially the heart, liver, and brain. For more information:

SFU Biennial Review

The law also requires a biennial review of the program. Pursuant to amendments in the HEOA, any biennial review must include a determination of the number of drug and alcohol-related violations and fatalities that occur on the institution's campus or as part of the institution's activities and the number and type of sanctions imposed by the institution as a result of drug and alcohol-related violations and fatalities that occur on the institution's campus or as part of the institution's activities.

The Saint Francis University biennial review is kept on file in the office of the Vice President for Student Development, located in 232 Padua Hall.
