Appendix I English Language Requirements Explanation

Saint Francis University requires all nonnative English-speaking international applicants to submit an English competency exam score. Consideration for full admission requires that students must receive a combined score of 6.5 on the IELTS exam or 80 on the TOEFL exam. Students that do not meet the TOEFL 80 or IELTS 6.5 English proficiency can be admitted through the International Oasis Program.

TOEFL score of 65-79 or an IELTS score of 6

If the student has a TOEFL score of 65-79 or an IELTS score of 6, he/she can be admitted into a University degree program. However, to help the student be successful, the student must also participate in the International Oasis Program, which can accommodate both undergraduate and graduate pathway students. Upon arrival, Students are administered an iTEP English placement exam. This placement exam consists of a 1-hour computer-based exam, up to one hour for written composition, and a 20-minute interview. Upon completion of the exam, The Center for Academic Success reviews the exam scores. Depending on the composite scores in reading, writing, or listening/speaking, course recommendations are made to enroll in one or two GEN 3-credit courses depending on which area(s) need the most support.

International Oasis students enroll in these courses concurrently while taking academic courses in their major. Once a student begins taking courses through the International Oasis program, the student should not need additional semesters to complete his/her degree requirements and should be able to complete their degree on time. Undergraduate students in the International Oasis program are eligible to receive institutional aid and most students receive the International Excellence merit scholarship.

TOEFL score of 64 or less or an IELTS score less than 6

Students are not admitted to Saint Francis University with TOEFL scores of 64 or less or an IELTS score less than 6.
