ARTICULATION AGREEMENT

SAINT FRANCIS UNIVERSITY
AND

WESTERN MONTGOMERY CAREER & TECHNOLOGY CENTER

The Western Montgomery Career & Technology Center (WMCTC) and Saint Francis University (SFU) hereby establish this transfer articulation agreement for the transfer of Western Montgomery Career & Technology secondary students and alumni to Saint Francis University.

Recognizing that the missions and goals of both institutions include serving the educational and workforce needs of Pennsylvania, the high quality of both institutions, the growth of the career education movement throughout the state and in our region, and the need to provide multiple paths to the associate degree for both traditional-aged and returning adult students, this agreement allows for seamless transition for students from WMCTC to SFU and guarantees admittance and the Adult Degree & Continuing Studies discounted tuition rate, provided performance standards are met at the WMCTC.

The primary purpose of this agreement is to enhance the transferability between the accredited secondary programs at WMCTC into the associate of applied science degree programs at SFU. This will be accomplished in part by having faculty and administration of both institutions more aware of programs at the other institution, and thus providing better advising and planning for the students interested in this academic path. The goal is to help students find a path to a college education that is readily apparent, time sensitive, easily understandable, logistically organized, and financially responsible.

The intent of this agreement is to provide a seamless transfer from identified and agreed upon secondary administrative/computer-related programs offered at the WMCTC into the Associate of Applied Science in Human Resource/Computer Technology Degree offered through the Adult Degree & Continuing Studies division of Saint Francis University.

PRINCIPLES OF AGREEMENT

1. Western Montgomery Career & Technology Center students are eligible to transfer into Saint Francis University's Associate of Applied Science in Human Resource/Computer Technology offered through Adult Degree & Continuing Studies. This agreement is not offered as a transfer to traditional day-time undergraduate programs. If a WMCTC graduate wishes to apply to SFU's traditional day-time undergraduate programs, he/she may do so by contacting the Office of Admissions (814-472-3100 or admissions@francis.edu). Transfer into the Adult Degree & Continuing Studies programs can be done by contacting the office of Adult Degree & Continuing Studies at (814-472-3012 or oce@francis.edu) or visiting www.francis.edu/adcs.
2. WMCTC students are encouraged to apply for transfer admission to SFU as early as possible during their studies at the WMCTC. WMCTC students who declare the intent to transfer to Saint Francis University will receive SFU academic and career advising from that point on. Through Adult Degree & Continuing Studies, WMCTC students will be guaranteed acceptance with a 2.0 grade point average, provided all other requirements are met.
3. The WMCTC will provide the office of Adult Degree & Continuing Studies with course requirements, curriculum outlines, learning goals and objectives, and competencies for the courses preparing the student to enter into the Associate of Applied Science Degree Program. Saint Francis University will provide the Western Montgomery Career & Technology Center with SFU course requirements necessary to complete the Associate of Applied Science Degree Program.
4. The determination of major program requirements for the applied science associate degree will be the responsibility of SFU. Transfer students will be held responsible for the requirements of a major, as well as general education requirements and other academic policies and procedures, as published in the Saint Francis University catalog at the time they enroll at the University.
5. Any statute of limitations on the acceptance of WMCTC transfer credit towards general education and major requirements will be consistent with the statute of limitations for all SFU students. Credits accepted in transfer from WMCTC will not be used by SFU in the computation of the student's grade-point-average or the awarding of academic honors.
6. WMCTC students who transfer to SFU will be treated the same as other SFU students of equal class standing when applying for financial aid, applying for specific majors, registering for classes, participating in orientation activities, and completing all other processes.
7. The following WMCTC accredited secondary programs of study must be completed successfully and mastered on the secondary level. Each course of study of at least 900 clock hours and listed below will be accepted as the equivalent of twenty-seven (27) Saint Francis University free elective courses.

Secondary Diploma Programs included in this articulation agreement:

Commercial Art
Computer Information Systems
Cosmetology

Culinary Arts
Protective Services

8. The student transferring previously earned college credits from another regionally accredited college/university enrolling into the Associate of Applied Science Degree in Human Resource/Computer Technology will be required to complete a minimum of twenty-seven (27) credits in their particular degree program at Saint Francis University. As such, the student will be allowed to transfer in a maximum of an additional (9) previously earned credits into the degree program, along with the twenty-seven (27) credits of advanced standing transferred in from the WMCTC, for a total of thirty-six (36) possible transfer credits.

9. It is the responsibility of the WMCTC student to first seek the advice of a WMCTC staff member or instructor if he/she intends to transfer to SFU. The Adult Degree & Continuing Studies staff will work with the WMCTC staff and students to ensure timely and accurate dissemination of materials and information regarding the transfer from secondary programs of study at the WMCTC into the Associate of Applied Science Degree at SFU. It is also the student's responsibility to obtain, and submit an SFU application for admission, and to submit an official WMCTC transcript to SFU. Students will complete the Adult Degree & Continuing Studies online application located on the main SFU website (www.francis.edu/adcs).

10. Both WMCTC and SFU will publicize and promote this agreement to potential and current students, faculty, staff, alumni, and the general public. WMCTC will invite the SFU Adult Degree & Continuing Studies Office to any transfer advising sessions, career days, or open houses; and will provide SFU transfer admissions materials to students requesting such information. WMCTC will announce to its current students and to its alumni when SFU is holding open houses for possible transfer students. WMCTC will include SFU on its web listing and other pertinent materials regarding transfer and articulation agreement programs. The WMCTC agrees to follow general guidelines/policies regarding any advertising of this agreement to the general public. Appropriate logos and other marketing materials will be provided to the WMCTC for such use.

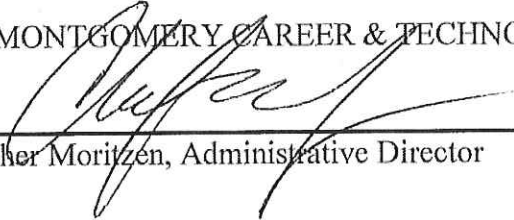

11. Each institution will designate an official who will be responsible for all aspects of the articulation program at that institution. SFU will periodically update the evaluation of WMCTC catalog courses when deemed necessary by both institutions.

12. WMCTC and SFU will review this agreement every two years to make any necessary adjustments. Either institution may terminate this agreement after providing written notification at least one year in advance of the effective date of termination. It is understood that such changes will not adversely impact students already covered under the provisions of the existing agreement.

The Western Montgomery Career & Technology Center and Saint Francis University hereby authorize this articulation agreement effective immediately upon the signatures of both institutions.
