Social Work Licensure Disclosures

What is this document?

Saint Francis University's Social Work program is accredited by the Council of Social Work Education at the baccalaureate level and is designed to meet **educational** prerequisites for applicable licensure/certification in the Commonwealth of Pennsylvania. Requirements for licensure vary from state to state, and several states require a Master's level degree for licensure in the field of social work. This document indicates SFU's most recent evaluation of whether its BS in Social Work program meets the educational prerequisites required for licensure in each state.

Are there any other requirements?

Yes, please note that states may have requirements in addition to educational requirements. These may include, but are not limited to, passing an examination, demonstrating good moral character, and paying a licensing fee. Only educational requirements are addressed here and by the program. Please also note that the information below should not be construed as guaranteeing that any particular professional licensure/certification authority will approve a student's application. Individuals are advised that SFU may be required to be authorized by the applicable professional licensure/certification authority prior to clinical or other experiential learning placement; such authorizations are not secured by virtue of a student's enrollment at SFU.

Where do I get the most up-to-date information?

State professional licensure/certification requirements are subject to change at any time. For the most up-to-date information, please contact the appropriate licensing board for your state.

What if I need help understanding this?

Saint Francis University is happy to help guide you. If you have questions or need assistance in navigating the requirements, please contact the Social Work Department Chair.
